Index of Subjects

A Predator's Dilemma, prey choice and parasite susceptibility in three-spined sticklebacks, 339
Abiotic effects, on *Raillietina trapezoides* infection rate and intensity in the fat sand rat, 481
Acanthocheilonema viteae, microinjection of *Wolbachia* into, 503
Adhesion molecules, secretion of by *Strongyloides venezuelensis in vivo*, 165
African bovids, habitat overlap and gastrointestinal parasitism in, 379
Age-intensity profiles, interpretation of in parasitological surveys, 87
Albendazole sulphoxide, effects of on the tegument of *Fasciola hepatica*, 141
Alpha tubulin gene, characterization of from *Neospora caninum* and *Hammondia heydorni*, 561
Ancylostoma caninum, proteolytic activity of cathepsin D from, 179
Antimalarials, selection of for *Plasmodium falciparum*, 391
Apatemon cobitidis proterorhini, gross anatomy of muscle systems and innervation of, 273
Apicomplexan parasites, cladistic analyses of, 555
Artelinate, efficacy of in *Plasmodium berghei*-infected rats, 283
Artesunate, efficacy of in *Plasmodium berghei*-infected rats, 283
Ascaris suum, effect of emodepside at the neuromuscular junction of, 79
Association, of *Borrelia afzelii* with rodents in Europe, 11

Babesia microti, molecular evidence of infection by in small mammals, 113
Besnoitia oryctofelisi n. sp., from domestic rabbits, 521
Biotic effects, on *Raillietina trapezoides* infection rate and intensity in the fat sand rat, 481
Blastocystis isolates, sequence heterogeneity of RNA genes among, 1
Blood trypomastigotes, effects of isolation methods on protein profiles of, 41
Boophilus microplus, a vitellin degrading cysteine proteinase from, 155
Borrelia afzelii, association of with rodents in Europe, 11
Bothriocephalus acheilognathi, genetic differentiation in populations of, 493

Calcium signal, involvement of in nitric oxide-induced apoptosis in *Toxoplasma gondii*, 541
Cathepsin D, from hookworm, proteolytic activity of, 179
Cellular differentiation, effects of oyster extract on, in *Perkinsus marinus*, 293
Cercaria margaritensis, ultrastructural study of the reproductive system of, 261
Chloroquine, *Plasmodium falciparum* sensitivity to in Senegal, 401
Cladistic analyses, of some apicomplexan parasites, 555
Cluster analysis, of *Trypanosoma equiperdum*, 425
Copepods, is body size or activity of related to ingestion of parasite larvae?, 173
Cryptosporidium parvum, pathogenicity of the 'porcine' genotype, 407
Cysteine proteinase, from *Boophilus microplus*, degrades vitellin, 155
Cytochemical studies, of the neuromuscular systems of *Eudiplozoon nipponicum*, 349

Detection, of tandem repeated DNA sequence for *Echinostoma caproni* in snail and plankton samples, 443
Diethylcarbamazine, effects of on the ultrastructure of *Wuchereria bancrofti*, 551
Digenean communities, structure of, in the black-headed gull, 69
Dispersion patterns, interpretation of, in parasitological surveys, 87
DNA vaccines, use of to protect against experimental *Neospora caninum* infection, 303
Domestic rabbits, *Besnoitia oryctofelisi* from, 521
Drug resistance genes, selection of for *Plasmodium falciparum*, 391
Dynamics, of the fat sand rat intestinal nematode, *Raillietina trapezoides*, 481

Echinococcus granulosus, isolation of microsatellites from, 599
modelling the transmission dynamics of, 417
Echinostoma caproni, description of the tandem repeated DNA sequence for, 443
Echinostoma friedi, reproductive success of in the golden hamster, 433
Efficacy, of artelinate and artesunate in *Plasmodium berghei*-infected rats, 283
Emodepside, effect of at the neuromuscular junction of *Ascaris suum*, 79
Entamoeba histolytica, activity of phosphotyrosine phosphatase in, 195
Eudiplozoon nipponicum, cytochemical studies of the neuromuscular systems of, 349
Exogenous nitric oxide, induction of apoptosis by in *Toxoplasma gondii* tachyzoites, 541
Expressed sequence tag survey, of gene expression in *Psoroptes ovis*, 451
Expulsion, of *Trichinella* from mouse intestine by monoclonal IgA, 591

Fasciola hepatica, nitric oxide synthase activity in, 585
tegumental effects of albendazole sulphoxide on, 141
Fibrinolytic factor, identification of in *Schistosoma mansoni*-infected mice, 231
Foetal haemodynamics, during malaria, 513
Fox bile, effect of on establishment of *Trichinella* in rats, 461

Gammarus duebeni, virulence of *Nosema granulosis* in, 119
Gasterosteus aculeatus, experimental infection of with *Schistocephalus solidus*, 359
Gastrointestinal parasitism, and habitat overlap, in sympatric African bovids, 379
Gene expression, in *Psoroptes ovis*, 451
Genetic analysis, of Tunisian *Theileria annulata*, 241
Genetic differentiation, of *Bothriocephalus acheilognathi* populations, 493
Genetic variation, in infrapopulations of *Lecithochirium fusiforme*, 465
Gross anatomy, of the muscle systems and associated innervation of *Apatemon cobitidis proterorhini* metacercaria, 273

Habitat overlap, and gastrointestinal parasitism in sympatric African bovids, 379
Haematopoiesis, in *Leishmania major*-infected BALB/c mice, 187
Hammondia heydorni, characterization of alpha tubulin gene from, 561
Henneguya friderici, ultrastructure of, 313
Hoechst 33342, effect of on *Leishmania* replication, 21
Host immunity, effects of on virulence-transmissibility in *Plasmodium chabaudi*, 103
Host specificity, a new index of, 473
Human infection by *Leishmania*, characterization of, 31

IgA-mediated expulsion, of *Trichinella* from the intestine of mice, 591
Immobilization antigens, of *Philasterides dicentrarchi*, 125

Immune response, activation of by an intestinal trypanosome parasite of bumble bees, 253
Immunoparasitological parameters, of trichinellosis in rats, 321
Ingestion, of parasites by copepods, 173
Innervation, of *Apatemon cobitidis proterorhini* metacercariae, 273
Interrelationships and phylogeny, of *Schistosoma*, 203
Invasion, of skin by schistosome cercariae, causes delayed tail loss, 135
Isolation methods, effects of on protein profiles of blood trypomastigotes, 41

Larus ridibundus, occurrence of intermediate hosts and structure of digenean communities of, 69
Lecithochirium fusiforme, genetic variation in infrapopulations of, 465
Leishmania DNA topoisomerase, effect of Hoechst 33342 on, 21
Leishmania major, infection by induces haematopoiesis in mice, 187
Leishmania, characterization of in humans, 31

Malaria, foetal haemodynamics during, 513
Mathematical modelling, of the transmission dynamics of *Echinococcus granulosus* in dogs in Kazakhstan, 417
Mating interactions, of *Schistosoma haematobium* and *S. intercalatum* with their hybrid offspring, 327
Microsatellite markers, use of to reveal genetic differentiation in *Bothriocephalus acheilognathi*, 493
Microsatellites, isolation and characterization from *Echinococcus granulosus*, 599
Molecular evidence, of *Babesia microti* infection in small mammals, 113
Morphological changes, in the reproductive organs of *Schistosoma mansoni*, 53
Muscle systems, of *Apatemon cobitidis proterorhini* metacercariae, 273

NcSAG1 and NcSRS2-based recombinant antigens, use of for vaccination of mice against *Neospora caninum* infection, 303
Necator americanus, proteolytic activity of cathepsin D from, 179
Neospora caninum, characterization of alpha tubulin gene from, 561
  vaccination of mice against infection by, 303
Neuromuscular junction, effect of emodepside on in *Ascaris suum*, 79
Neuromuscular systems, cytochemical studies of, in *Eudiplozoon nipponicum*, 349
Nitric oxide synthase, in *Fasciola hepatica*, 585
Nosema granulosis, virulence of in *Gammarus duebeni*, 119
Novel ribosomal protein, TcrL27, from *Trypanosoma cruzi*, 577

Occurrence, of intermediate hosts of *Larus ridibundus*, 69
Opisthorchis viverrini, detection of infection using PCR, 63
Outcrossing, in *Schistocephalus solidus*, 369
Oyster tissue extract, effects of on protease expression in *Perkinsus marinus*, 293

Parasite replication, effect of Hoechst 33342-mediated *Leishmania* DNA topoisomerase inhibition on, 21
Parasite specialization, from a phylogenetic perspective, 473
Parasite susceptibility, in three-spined sticklebacks, 339
Parasitological surveys, interpretation of age-intensity profiles and dispersion patterns in, 87
Pathogenicity, of *Cryptosporidium parvum* 'porcine' genotype, 407
PCR, use of to detect *Opisthorchis viverrini* infection in fish, 63
Perkinsus marinus, host extract modulates *in vitro* protease expression in, 293
pfcrt polymorphisms, prevalence of in Senegal, 401
Phenotypic analysis, of Tunisian *Theileria annulata*, 241
Philasterides dicentrarchi, immobilization antigens of, 125
Phosphotyrosine phosphatase, activity of in *Entamoeba histolytica*, 195
Phylogenetic perspective, of parasite specialization, 473
Phylogenetics, of Schistosomatidae, 203
Plasmodium berghei-infected rats, efficacy of artelinate and artesunate in, 283
Plasmodium chabaudi, effects of host immunity on virulence-transmissibility in, 103
Plasmodium falciparum, local differentiation of in Sudan, 391
  prevalence of *pfcrt* polymorphisms in Senegal, 401
'Porcine' genotype, of *Cryptosporidium parvum*, infectivity and pathogenicity of, 407
Prey choice, in three-spined sticklebacks, 339
Protease expression, effects of oyster extract on, in *Perkinsus marinus*, 293
Protective immune response, induced by surface immobilization antigens from *Philasteroides dicentrarchi*, 125
Protein uptake, by the excretory system of *Schistosoma mansoni*, 235
Protozoa, *Besnoitia oryctofelisi* n. sp., 521
Psoroptes ovis, gene expression in, 451

Raillietina trapezoides, dynamics of in the fat sand rat, 481
Reproductive success, of *Echinostoma friedi* in the golden hamster, 433
Reproductive system, of *Cercaria margaritensis* metacercaria, an ultrastructural study of, 261
Ribosomal RNA genes, sequence heterogeneity of among *Blastocystis* isolates, 1
Rodents, in Europe, association with *Borrelia afzelii*, 11

Schistocephalus solidus, consequences of self-fertilization and outcrossing in, 359
  experimental infections of in *Gasterosteus aculeatus*, 359
Schistomatidae, phylogenetics of, 203
Schistosoma haematobium, mating interactions of with its hybrid offspring, 327
Schistosoma intercalatum, mating interactions of with its hybrid offspring, 327
Schistosoma mansoni, induction of thrombocytopaenia by in mice, 225
  infection of mice with induces a fibrinolytic enzyme, 231
  morphological changes in the reproductive organs of, 53
  protein uptake by the excretory system of, 235
Schistosoma, phylogenetics and interrelationships of, 203
Self-fertilization, in *Schistocephalus solidus*, 369
Sequence heterogeneity, of RNA genes among *Blastocystis* isolates, 1
Sreptozotocin, effects of on morphological changes in the reproductive organs of *Schistosoma mansoni*, 53
Strongyloides venezuelensis, secretion of adhesion molecules by *in vivo*, 165
Survival, of *Theileria parva* in *Rhipicephalus appendiculatus*, under laboratory conditions, 571

Tail loss, delay of during invasion of schistosome cercariae, 135
Tandem repeated DNA sequence, description of for *Echinostoma caproni*, 443
TcrL27, a novel *Trypanosoma cruzi* ribosomal protein, 577
Tegument, of *Fasciola hepatica*, effects of albendazle sulphoxide on, 141
Texas Red-BSA, uptake of by *Schistosoma mansoni*, 235
Theileria annulata, genetic and phenotypic analysis of Tunisian clones of, 241
Theileria parva, survival of in *Rhipicephalus appendiculatus*, under laboratory conditions, 571

Thrombocytopaenia, induction of in mice by *Schistosoma mansoni*, 225
Toxoplasma gondii, induction of apoptosis in tachyzoites of by exogenous nitric oxide, 541
Transmission dynamics, of *Echinococcus granulosus*, modelling of, 417
Trans-species transfer, of *Wolbachia*, 503
Trichinella spp., effect of fox bile on the establishment of, 461
Trichinella, expulsion of from mouse intestine by monoclonal IgA, 591
Trichinellosis, immunoparasitological parameters of in rats, 321
Trypanosoma cruzi, a novel ribosomal protein, Tcrl27, from, 577
characterization of double infections of with *Leishmania*, in humans, 31
effects of isolation methodology on protein profiles of blood trypomastigotes of, 41
Trypanosoma equiperdum, cluster analysis of, 425
Trypanosome parasite, activation of the immune response of bumble bees by, 253
Tunisian *Theileria annulata*, genetic and phenotypic analysis of clones of, 241

Ultrastructural studies, on the effects of albendazole sulphoxide on the tegument of *Fasciola hepatica*, 141
Ultrastructural study, of reproduction in *Cercaria margaritensis* metacercariae, 261
Ultrastructure, of *Henneguya friderici* n. sp., 313

Vaccination, of mice, against *Neospora caninum* infection, 303
Virulence, of *Nosema granulosis* in *Gammarus duebeni*, 119
Virulence-transmissibility, effects of host immunity on in *Plasmodium chabaudi*, 103
Vitellin, degradation of by a cysteine proteinase from *Boophilus microplus*, 155

Wolbachia, microinjection of, from *Litomosoides sigmodontis* into *Acanthocheilonema viteae*, 503
Wuchereria bancrofti, effects of diethylcarbamazine on the ultrastructure of, 551
